Mobarhan Food Industries

Pioneer of Health-Oriented Products - About us

Founded in 2014, Mobarhan Food Industries began its specialized operations with the mission of promoting public health through a comprehensive range of sugar-free and dietary products. Focused on the needs of diabetics and health-conscious consumers, Mobarhan has grown to become one of the largest producers in this sector.

Innovation and Production :

- **The Starting Point :** We launched our journey with our signature "Halva Sohan," prioritizing premium raw materials and traditional expertise.
- **R&D Excellence :** By analyzing market needs, we have successfully increased our share in the "Zero-Sugar" and "Oil-Free" markets.
- **Chemical-Free Commitment :** Our greatest achievement is eliminating chemical preservatives and added oils while maintaining a long and natural shelf life.

Natural Sweeteners :

The secret to our health benefits lies in replacing sugar with natural fruit syrups, including grape, mulberry, and fig syrups, bringing authentic taste and wellness to your table.

Global Reach :

Our commitment to excellence has enabled Mobarhan to successfully export its products to Iraq and other Persian Gulf countries.
